

Healthy Aging Utah Summit

September 17, 2018

5:30 PM-7:30 PM, Conference Room A
St. John the Baptist Catholic Church, Draper

Cutting Edge Information on Alzheimers, Dementia and Planning for Long Term Care in Utah

- John Kauwe, Ph.D., professor and chair of Biology Department at BYU and nationwide authority on Alzheimers and Dementia will explain the pathology of Alzhiemer's disease and describe approaches used for diagnosis of cognitive deficits. He will summarize what is known about the heritability of Alzheimer's disease and describe current state of the art approaches and research for understanding the genetic basis of the disease.
- Learn what Utah offers as public benefits to receive care at home and in long term care facilities.
- Learn how to privately fund long term care.
- Learn about the legal documents that you need as you age.

FREE COMMUNITY SEMINAR
